## Profile

Machine Learning Engineer with 3+ years of experience building scalable ML models. Passionate about deep learning, NLP, and production-ready systems.

## Skills

- Languages: Python, C++, SQL

- ML Frameworks: PyTorch, TensorFlow, scikit-learn

- Tools: Docker, AWS, MLflow, Git

- Concepts: CNNs, Transformers, Feature Engineering, Model Deployment

## Experience

### Machine Learning Engineer

*XYZ Corp, Jan 2022 - Present*

- Developed NLP pipeline for customer support automation

- Improved model inference speed by 30% using ONNX

- Collaborated with data engineers to build training pipelines on AWS
